

Greetings All-

The Walker River Irrigation District is pleased to invite you to a Totalizing Meter Accuracy and Calibration Workshop presented by Mr. Jon Lee of Pump Check, pump systems analyst.

The presentation will be at the following:

**Where: Pioneer Crossing Convention Center**

**11 N. Main St**

**Yerington, Nevada**

**When: Friday, April 24, 2015, 10:00-12:00**

This workshop will cover:

- Water meter types, pros & cons
- Water meter manufactures
- Flow profiles
- Meter placement
- Meter accuracy
- Meter testing
- Meter calibration
- Meter repair
- Specifications for ordering a water meter

The PPT should be about an hour, plus Q & A. Please note that this presentation is open to anyone interested in water totalizing meters, so please invite your friends and neighbors!

About Jon Lee:

Jon has 23-plus years of pumping industry experience and has been the owner of Pump Check since 1999. Pump Check specializes in pump testing, water meter testing, and hydraulic operational analysis.

Pump Check is an official pump efficiency test company for the California Energy Commission and developed the Field Pump Efficiency Testing Standards used by other pump testing companies, utilities and universities. Pump Check also manages pump efficiency testing programs for different utilities in the western United States.

Jon is licensed by the California Department of Consumer Affairs as a C10, C61/D21, and HIC Contractor, has a Department of Defense Logistics Agency clearance, a Department of Corrections Clearance and a U.S. Department of Energy certification as a Qualified Pump System Specialist.

Jon is Vice President and Chair of the Standards Committee of the California Association of Pump Test Professionals. He has developed an internal combustion, prime mover pump testing program, written a manual on design and fabrication of specialized equipment and procedures, and provides training for internal combustion and electric motor prime mover pump efficiency testing.
